The background of the image is a close-up, high-resolution shot of a wall made of stone tiles. The tiles are rectangular and arranged in a staggered, overlapping pattern. Each tile has a distinct, wavy, feather-like texture that gives the surface a three-dimensional appearance. The lighting is soft and even, highlighting the intricate details of the stone's surface. On the right side of the image, there is a vertical strip of a different material, possibly a different type of stone or a decorative element, which has a smoother, more uniform texture and a slightly different color tone compared to the main wall tiles.
